Councillor Daniels inquired if the fire departments could provide a written report of expenditures and statistics to Council, noting it was difficult to capture in the oral reports usually given. CAO Laycock expressed that requiring the departments to submit written reports on individual expenditures would be difficult as they are independent societies except for Hantsport Fire Department. He clarified that audits are a review of numbers provided in a consistent manner for comparison purposes. The Warden stated the fire departments are held accountable during the budget process and confirmed with the CAO that the budgets for the fire departments had been received.

Councillor Monroe inquired if there was a concern about the department’s financials if Council could ask for a forensic audit. The CAO stated under the Municipal Government Act a policy of Council would be required to ask for a forensic audit, adding that the Fire and Emergency Services Policy is currently with the executives and will be brought to Council after their review.

Councillor Francis stated that other than through the fire policy and budgets, the Municipality was only accountable for one fire department, the rest are all societies with financial control by the Municipality through the budget. She went on to note, the Municipality could not look after the internal issues of volunteer societies adding if Council was looking to create a paid fire service the cost would be substantial. She expressed wanting to see the policy before Council moves forward.

Warden Zebian stated that this discussion was off-topic and not on the agenda. He suggested the discussion be taken up during budget deliberations, at Committee of the Whole or with the CAO at another time.
