Municipal Planning Strategy and Land Use By-law Amendments – Indoor Storage Facilities Accessory to Agricultural Uses
MOVED and SECONDED that Council give First Reading and hold a Public Hearing to consider amending:
1. the text of the West Hants Municipal Planning Strategy to create a policy to permit indoor storage facilities as accessory uses to agricultural uses; and
2. the text of the West Hants Land Use By-law to:
   i. allow indoor storage facilities without a development permit within agricultural buildings constructed prior to November 13, 2018;
   ii. permit the use of accessory buildings for indoor storage facilities on lots used for agricultural purposes;
   iii. create special requirements for indoor storage facilities;
   iv. add indoor storage facilities as a permitted us accessory to agricultural uses, subject to the special requirements, in the Prime Agricultural, Agricultural Priority Two (2), Agricultural Priority Three (3), General Resource and Mineral Resource Zones; and
   v. include a definition of indoor storage facility and recreational vehicle; as attached as Appendix A and B of Report #18-03 to the Planning Advisory Committee dated September 20, 2018 with the deletion of the limit to one building per lot. Motion Carried.

Land Use By-law Text Amendment – Micro-Cultivation and Micro Processing of Cannabis
MOVED and SECONDED that Council give First Reading and hold a Public Hearing to consider amending the West Hants Land Use By-law to enable Licensed Micro-Cultivation as an Agricultural Use and Micro-Processing as an Agricultural support use, as attached to the Planning staff report dated September 20, 2018 as Appendix A.

Councillor Zwicker questioned if the motion should proceed due to a concern brought forth by a resident. Councillor Jannasch stated that the resident had taken exception to the wording in the amendment and suggested that a gentler word be considered. The Director of Planning and Development advised Council that the resident’s concern had been investigated. She went on to say that staff had contacted both the Provincial and Federal Governments regarding the wording and that no change in the wording would be needed. Motion Carried.

Civic Addressing By-law
MOVED and SECONDED that Council give First Reading and hold a Public Hearing to consider replacing the existing Civic Addressing By-law with the Civic Addressing By-law (C-003) contained in Appendix C of the September 20, 2018 report to PAC/HAC. Motion Carried.

         Investment Program (FRIIP), with the remaining 50% to come from the Gas Tax Reserve.
         Motion Carried.

   ii. Fire Advisory Committee
      1. Fire Advisory Excerpts - October 2, 2018
         Councillor Daniels declared a conflict of interest.

EAP Program
MOVED and SECONDED that Council direct the CAO to contact the municipal fire
departments to ask the members if they have an Employee Assistance Program, if they
are interested in an Employee Assistance Program, and if they would use an Employee
Assistance Program.
Motion Carried.

Reimbursement of Funds
MOVEd and SECONDED that Council write a letter to the NSFM to advocate for
reimbursement of funds to fire departments when they are used to cover roles not
related to fire, such as traffic control.
Motion Carried.

Fire and Emergency Services Policy (COGE-007.00)
MOVEd and SECONDED that Council approve the Fire and Emergency Services Policy,
COGE-007.00, presented to the Fire Advisory Committee on October 2, 2018, as amended.
Councillor Leopold asked for clarification on several items in the Policy. She asked if item 7.b.
under Registration Process and Procedure meant that individual fire departments would not
be required to carry insurance and that the Municipality would be the sole carrier. CAO
Laycock replied that the Municipality could be responsible for the payment of the insurance,
and individual departments would be named under the insurance policy, but it is not
mandated; stating that either the Municipality or the fire department will need to carry the
insurance.

Councillor Leopold asked under Financial Matters, if item 8.b) (iv) would be required to be a
line item in the operating budgets that are submitted by the departments. The CAO
responded that it will and has been a requirement of the departments in past years.

The Councillor asked about Facility/Building Rightsizing, item 18 in the Policy, questioning
what the right sizing was specifically speaking to noting that she read it as there would be
differences between departments. CAO Laycock advised that the rightsizing was in relation
to what Council decided to fund adding that if a department wishes to go outside the
services that Council is comfortable supporting, it will be up to the departments to
determine how the services will be funded.
Motion Carried.

Fire Services Coordinator
MOVEd and SECONDED that Council make a recommendation to add a Fire Services
Coordinator or an Emergency Services Coordinator position to the Transition team
agenda.

Councillor Leopold asked if the length of time should be written in the motion to correlate to
the date of the consolidation. The CAO responded that the time would be assumed as the
Municipality is unable to hire any employees beyond March 31, 2020 as stated in the legislation. The Councillor went on to ask if it was the intention to hire for these positions full time. The CAO replied that it would be up to the Transition Committee to decide what they would support in the budget and how to move forward. **Motion Carried.**

Councillor Daniels rejoined the meeting.

iii. Region 6
   1. Extended Producer Responsibility (Recommendation Report) – Councillor Jannasch

Councillor Jannasch reviewed the Extended Producer Responsibility Recommendation Report. He stated that Council has had discussions on the topic in the past advising that Extended Producer Responsibility would be coming forward as a priority resolution at the fall NSFM conference. The Councillor went on to say that, with encouragement from both Region 6 and Valley Waste, he had been asked to bring the motion forward to have Council endorse the resolution coming to the NSFM.

Councillor Jannasch noted that it is known that the Municipality stands to gain $220,000 by the passing of the resolution by the NSFM and then the Provincial government. He noted that the funding would come from a service that the Municipality is already paying for.

**MOVED and SECONDED** that West Hants Council endorse the proposed resolution #6 concerning Extended Producer Responsibility of the September 7, 2018 NSFM Resolutions Report as a priority resolution for the 2018 Fall NSFM Conference. **Motion Carried.**

iv. Audit Committee
   1. 2017-2018 Financial Audit

Warden Zebian spoke on the financial audit noting key points made by the auditors. He stated that Councillors should be asking questions to financial staff year-round to ensure the budget is being followed. The Warden stated that the auditors reported no issues surrounding the water utilities.

Warden Zebian went on to say that the auditors stated that the tax rate is sufficient to maintain the budget, adding that there was a surplus of $5.7 Million this year on the consolidated statements. He advised that the surplus was due to $3 Million received from the Province for the Clean Water programs and funding received from the fire arbitration.

The Warden stated that net debt was at $2.66 Million, stating that the figure is deceiving due to Gas Tax, which at $4.4 Million is considered a liability. The CAO advised that Gas Tax is considered a liability as the theory is that the government can call back the money at any time. Warden Zebian went on to say that the Municipality is in a healthy position and have added infrastructure value of $7 Million

The Warden expressed that the precision of the Municipality’s financial staff should be noted and held in high regard, adding that the internal controls are at a gold level. He noted that accounts receivable needs some improvement stating 6-8% is ideal for municipalities and the Municipality currently sits at 13%. The Warden expressed that staff have made plans to lower the percentage.

Warden Zebian spoke of the payouts to the Nova Scotia Housing Development Corporation, Library Board and noted that the education share had increased this year by $70,000 to $3.3 Million.

The Warden congratulated the Finance department.

**MOVED and SECONDED** that the Municipality of the District of West Hants’ Financial Audit to March 31, 2018 and Management Letter from Kent & Duffett Chartered Professional Accountants be received.
Councillor Leopold spoke of the observation made by the auditors that there was a cheque that had only one signature of the two necessary signatures and questioned what the value of the cheque was and who it was to. CAO Laycock advised that the cheque was for $80 and was for CPR training. The Councillor noted that she was curious to know the value to see what risk it may have posed.

Councillor Leopold went on to speak of the suggestion put forth that the Municipality should consider collecting taxes twice a year as opposed to only once to address cash flow issues. She went on to question if doing so would also address accounts receivable being higher than what is preferred. CAO Laycock expressed that he firmly disagreed with the auditor’s interpretation on the subject adding that cash flow is affected by receivables and it is irrelevant how many times per year taxes are collected.

Councillor Leopold questioned if the recommendation was put forth to address the issue with receivables noting that having the taxes paid twice a year may enable may make it easier for some to pay their taxes. The CAO spoke of the costs associated with making the change adding that taxes can be paid at any time of the year noting it is not necessary to wait for tax bills to be issued.

Councillor Leopold questioned how the Town of Windsor issues tax bills to which the CAO replied twice annually.

Motion Carried.

12. Correspondence
   CAO Laycock noted that there had been five complaints to the Ombudsman regarding the Municipality of which only two were brought to his attention. He advised that although all complaints put forward to the Ombudsman are registered, only the ones that warrant action are put forth to the Municipality.

   b. 10-02-2018 Nova Scotia Federation of Agriculture Letter
   c. 10-02-2018 Hants County Federation of Agriculture Letter

13. Miscellaneous / New Business
   a. Bill 62: Water – Councillor Francis
   Councillor Francis spoke of Bill 62, passed in 2016, which allows municipalities to put in place a by-law that allows residents to borrow money from the municipal unit to obtain infrastructure to supply, use or store water. She went on to say that some of her residents have seen the infrastructure planning being done in Three Mile Plains and would like to see the waterline extended but in the meantime, as this will not be happening in the near future, she would like to see the Municipality create a by-law that would allow them to apply for funding to drill a well or put in a cistern then they would pay it on their taxes.

   The Councillor voiced that the by-law would be something that would address issues in the rural areas where residents need water but are not able to due to financial reasons. She went on to ask if other Councillors that had received questions from residents about Bill 62 and if it was something that staff could investigate.

   The CAO advised that Bill 62 is for financing and installing equipment including containers on private property for the purpose of supply, use, storage and conservation of water. He went on to say that extending the water line would be different than what is being offered through Bill 62 as it would be a local improvement charge as it impacts a number of people and a by-law would be for individuals only.

   CAO Laycock advised that essentially residents would be obtaining a loan from the Municipality. He went on to speak of Halifax who moved forward with the creation of a by-law which they refer to as a “last resort loan” which has a number of caveats as the municipal unit would run the risk of the value of the loan being more than the value of the home which could lead not being able to recoup the funds. He went on to say that he wondered why someone would choose to borrow money from the Municipality expressing that the interest rate would most likely be higher than what they would receive at a bank.

   The CAO informed Council that he had spoken to the previous CAO of Barrington who passed a by-law for this purpose who stated that there was only one resident who took advantage of the option.
Councillor Leopold stated that she had residents asking her about Bill 62 and had requested an information or recommendation report from staff on financing for rural homes that wanted to drill wells or purchase cisterns in 2017 which was never brought to Council. CAO Laycock replied that as it was not presented as a formal motion of Council staff did not move forward with the request.

Councillor Leopold went on to say that she had an email dated July 29, 2017 from the former CAO which indicated that discussion had taken place at the Council meeting in March of 2017 where discussion took place on where to obtain funding for drilled wells. She went on to read the email stating that it had been recognized that there would be risks involved in moving forward with providing funding to residents through the method and that a policy or by-law would be needed and that an FAQ would be posted to the website. The Councillor stated that she would forward the email to the CAO so that the conversation could be continued.

MOVED and SECONDED that Council direct staff to investigate options for a by-law under Bill 62.

Councillor Zwicker expressed that the motion does not fit the role that the Municipality fills stating the Municipality is not a bank. He went on to say that individuals need to practice due diligence when they purchase homes stating that he would not be supporting the motion.

Councillor Daniels agreed with Councillor Zwicker. She spoke of the discussion that took place surrounding the issues with accounts receivables and the risks pointed out by the CAO. She noted that there were discussions on the topic as well and that she would not be able to support it as it stands. The Councillor stated that she would only support the motion if it was framed for staff to investigate the options and bring the information back to Council for consideration.

Councillor Hussey spoke on the comment made by Councillor Zwicker that residents need to practice due diligence noting that he was aware of a couple who purchased a house and found out after the purchase was complete that they would be responsible for the costs associate to replace a waterline as it was private, but they were not made aware. He pointed out that the residents had practiced due diligence in this case, but that others involved in the transaction had not. The Councillor expressed that he would be supporting the motion.

Councillor Leopold voiced that she would like to see information come forward regarding options so that an informed decision can be made. She added that many homes in the region are unserviced and the costs associated with drilling a well are often unknown. The Councillor noted that even if no residents apply for the funding at least they have the option.

Councillor Monroe asked if funding would be automatically approved to anyone who applies. CAO Laycock replied that, in the case of HRM, there are several criteria that have to be met in order to be approved, noting that it could not be over a certain percentage of the value of the home.

Councillor Jannasch stated that he echoed many of the points being made by Councillors. He went on to say that he had concerns in that not all areas are suited for drilled wells and asked if there were ways to reduce risks such as this by putting conditions in place. The CAO advised that, in his discussion with the previous CAO of Barrington, in cases such as that it would be possible to have a cistern put in as opposed to drilling a well. He went on to say that he would review the legislation to get a better understanding of the specifics then Council would have to determine what the Municipality would be willing to support for water conservation and storage.

Councillor Keith stated that he supported the motion as it supports residents.

Councillor Leopold stated that she would like to see Council having discussions on ways the Municipality could support residents struggling with water issues noting that there were cases of drought in the region in September even if Council makes the decision to not support the motion.

Councillor Francis pointed out that enforcement of payment of charges would be written as part of the by-law which would minimize the risk to the Municipality.

Motion Carried.
Councillors Daniels and Zwicker voted nay.

14. In-Camera
a. MGA 22(2) (c) – Personnel Matters

MOVED and SECONDED that the meeting move in-camera.
Motion Carried.

The meeting moved in-camera at 8:49 p.m.
The meeting reconvened at 9:18 p.m.

15. Date of Next Meeting – November 13, 2018
The next Regular Council meeting will be held November 13, 2018 at 7:00 p.m.

16. Adjournment

MOVED and SECONDED that the meeting be adjourned.
Motion Carried.

The meeting adjourned at 9:19 p.m.
