Hi Council,

It's a sad situation when a community is being ignored and having excuses made regarding the fixing of the flooding that keeps re-occurring on Stannus Street.

Council needs to address the situation now and not next week or next year - the community has been asking for too long - you know how long!

Please let me know how you are addressing this most recent flooding? What are the plans to correct this? What happened to the idea the road would be closed when there is flooding?

Please remember a council is meant to serve the community - not just businesses or profit and/or ignore those that have been in a very powerless situation with this flooding.

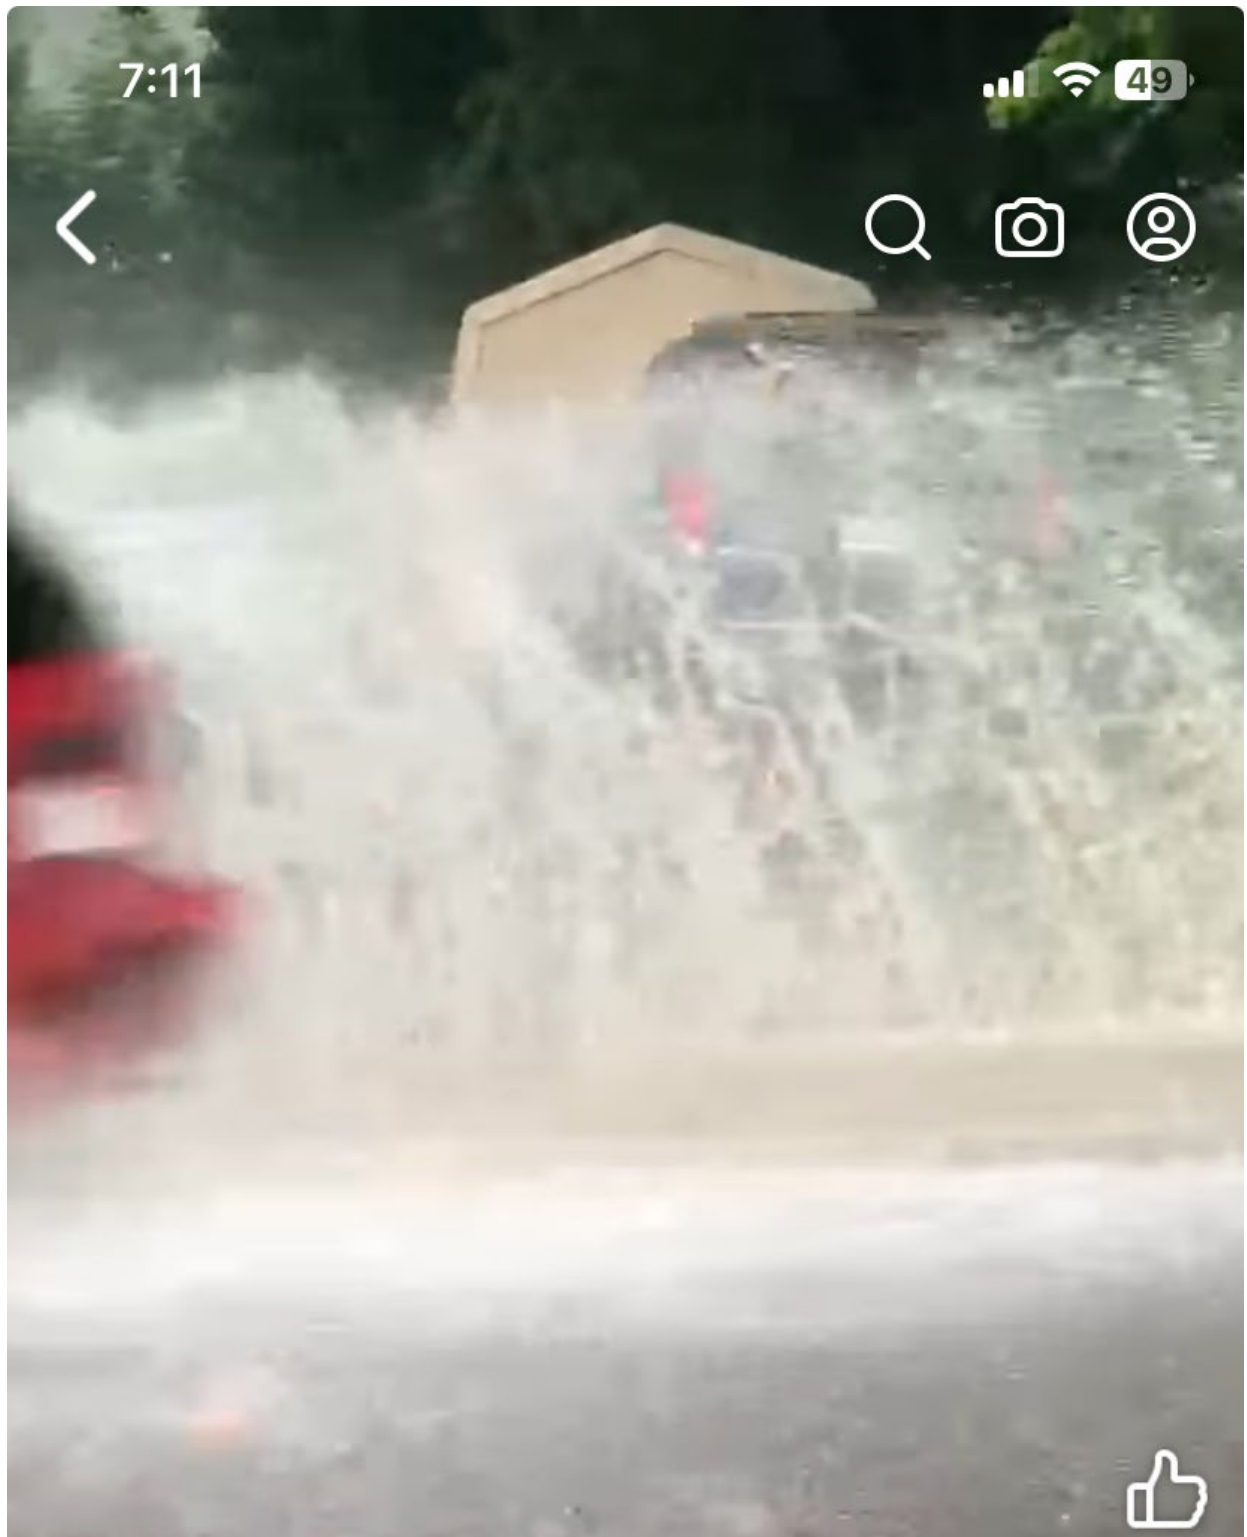

I include a photo of a car driving by and splashing that sewer water!

What action is taking place today?

Much appreciation for the action and steps to solve this issue once and for all!
