---

To All Councillors,

As you may be aware, private properties, public parks, playgrounds, and the Pisiquid Lake/Avon River in Windsor, Nova Scotia continue to experience issues with raw sewage pollution and flooding because of frequent municipal combined sewer system overflows. All levels of government persist in turning a blind eye to this long-standing situation; complaints and concerns from area residents have been repeatedly set aside and/or bluntly ignored over recent years.

At present there remains no plan in place to mitigate ongoing damages to private property and environment or take adequate and appropriate measures to protect human, environmental and aquatic health.

We are asking people to join the Flood Zone Windsor, NS Facebook group and share invitations to do the same with friends, other interest groups, members of press and politicians to help the residents of West Hants create awareness of this situation as we work towards putting an end to sewer overflows and sewage pollution in the community of Windsor, Nova Scotia.

Click this link to access the Flood Zone, Windsor NS Facebook group [Flood Zone, Windsor, NS | Facebook](#), search Facebook for Flood Zone, Windsor, NS to locate the group, or email [windsorfloodzone@gmail.com](mailto:windsorfloodzone@gmail.com) to be added to the mailing list. If joining the email list you will receive occasional update emails.

Thank you for your support! Sincerely and respectfully,

Someone Who Cares
