RE. WHRM Utility Account

To Whom It May Concern;

I am writing to ask you consider issuing a credit to the aforementioned account in the amount of sewer base and consumption charges incurred from July 27, 2021 to current. The first combined sewer overflow impacting this property during present ownership occurred on this date.

As all parties are now aware, it has been confirmed by CBCL the frequent combined sewer overflows experienced by this private property are as a direct result of WHRM's failure to remove or control "combined sanitary/storm water on Municipally owned land/streets" as per self described Municipality General Responsibilities (2023.11.29-Windsor-Stormwater-Presentation). This, combined with the fact CBCL has determined sewer discharge will continue to occur on Upper Stannus until such time the Cunnable Creek Combined Sewer System has been re-designed and re-constructed, it would only seem reasonable impacted homes would be exempt from these charges. This is not a failure of the properties.

I'd also like to advise there remains a Recreation Department credit in my name of approximately \$195 dating to July 2023 and request it be transferred to this utility account.

Thank you for your consideration. Have a happy day.

A handwritten signature in black ink, appearing to be 'A. Dunfield'.
