Subject: Garbage collection

Good day

I live in the Forest Lakes Subdivision for almost 4 years. Having to bring my garbage to the main road to have it removed, it's getting very tiresome. Every time I drop my garbage, green bin and recycling, I have to pick up someone's else's garbage that was left or attacked by an animal. We have had problems with our garbage disposal ever since I have moved into the Forest Lakes subdivision.

We pay some of the highest property taxes in the county, and we can't get our garbage collected at our doorstep. Something needs to change.

The amount of garbage being deposited by people outside of our community is getting out of hand. And now we have to worry about the wildlife in our area that are tearing up our green bins and household garbage.

Will we ever have our garbage and recyclables picked up at our front door to alleviate this mess?
