Dear Mayor and Members of West Hants Regional Municipality Council,

As a lifelong resident of Hants County and former local business owner, I am very disappointed with the decision to reduce citizen participation on the Planning Advisory Committee.

There are many communities with differing needs in our municipality. Within each community there also will be different types of private properties, businesses and builders. I believe reducing citizen representative input to only two seats at the table with all of council will be of detriment to us all.

I strongly urge you to reconsider this decision. Thank you.

Jeff Dunfield
