Premier Houston did not run on an election platform to roll back environmental protections, bans on uranium mining, and bans on fracking in order to expand risky, unsafe, resource extraction industries.
Also remind them that Houston only received the support of 27% of the registered voters for his clearly undeserved super-majority, and that he did so by breaking his own election laws to call a snap election.
You can also remind them that the vast majority of calls and e-mails responding to CBC's, Maritime Noon call in show on Mr Houston's scheme to expand resource extraction plans were strongly opposed to his plans and did not support these actions.

I ask you to carefully consider any support to weakening our already stressed environment . Thank you
