

*To West Hants Mayor and Council members,*

*I am writing to offer a suggestion for the development of our municipality that I believe could have significant benefits for our community. Specifically, I propose the creation of indoor Pickleball courts in the Windsor area.*

*Such a development would not only enhance the aesthetic and recreational options available to residents but also potentially attract more visitors to our area by being able to host large tournaments.*

*The benefits for our community members include fostering health and happiness among community members. Pickleball promotes the spirit of inclusivity, physical wellness and the common good.*

*I am keen to discuss this proposal further and explore potential steps to bring this vision to fruition with the support of the Mayor and West Hants Municipal Council.*

*Sincerely,*

*Clare McCarthy*
