

Mayor's Report – July 22, 2025

It's been another busy and productive month across West Hants, with numerous council meetings, resident discussions, and community events taking place.

RCMP Policy Review Update: I participated in the recent update regarding the RCMP Policy Review. The Province is preparing to implement changes to policing services that all municipalities will be required to follow by 2032. I anticipate no significant changes for West Hants, as we are already served by the RCMP.

Avon View High School Graduation: I had the pleasure of attending the Avon View High School graduation ceremony once again this year. It continues to be a highlight for me, and I extend congratulations to all the graduates and their families.

Public Meeting on Uranium Exploration: I attended the public meeting at the Windsor Community Centre regarding uranium exploration. The meeting was well attended, with approximately 100 residents present, as well as multiple members of Council.

Canada Day Celebrations in Hantsport: I took part in the Canada Day festivities in Hantsport. It was a wonderful celebration of our nation's birthday. Congratulations and thanks to the Hantsport Memorial Community Centre and all the volunteers who helped make the event a success.

4th Annual Pride Parade in Windsor: I was proud to participate in the 4th annual Pride Parade, which saw the largest turnout to date. It was an inspiring and joyful event. Congratulations to the organizers and volunteers who made it such a memorable celebration.

Planning Advisory Committee (PAC): I attended the most recent PAC meeting. Recommendations from this meeting will be coming forward to Council shortly.

Windsor Blue Fins Swim Meet: I attended one of the season's largest swim meets hosted by the Windsor Blue Fins. It was a successful event, with strong participation from our local athletes.

Stormwater Management Update: Council and I received an update from CBCL on stormwater management. We look forward to reviewing their upcoming recommendations.

Resident Engagement: Over the past month, I've met with many residents to discuss a range of topics, including the municipal budget, future development plans, waste collection, uranium exploration, and governance matters such as "strong mayor" powers.

Developer Meetings: I've also met with several developers to hear about their plans in different areas of the municipality. These discussions are important as we continue to plan for growth and development in West Hants.

July Newsletter: Work is currently underway on the July municipal newsletter, which will be shared with residents soon.

Thank you to everyone who continues to be involved in building and supporting our community!
