Dear council,

First, congratulations on your appointments you have been chosen by your friends, families, neighbours to be our voice and to guide West Hants to collective goals. I understand decisions can be hard and you are the one that must look your constituents in the eyes.

I am writing to you as one last plea, please do not accept the premiers demands on windmill proximity. Please be hero's and heroines for the people of West Hants. You will also be heroes for Guysborough, Newfoundland and Labrador and all other community voices who are being ignored. By saying no you will at least buy time to see how international events unfold.

Everwind and the Premier should not be deciding our fates. Trent Vichy of Everwind has been supporting the Russian war by purchasing their oil by products. This is against international sanctions that have been in place for two years. Everwind s partners are mostly American Headquartered. With Donald Trumps threats of tariffs, and Elon Musks new plan, we need to proceed with caution.

Please do not let these people tear up and destroy West Hants or Nova Scotia.
Sincerely Karen Wallace
