Hello everyone,

I hope this message finds you well.

As a resident of West Hants, I am expressing major concerns regarding the recently announced decision to reduce citizen representation on the PAC/HAC committee, to only two remaining members.

Although, I'm still not clear on how reasonable this decision is, it is clear to me that setting limitations for the involvement of citizens, who have valuable expertise, knowledge and more broad range of necessary perspectives that are essential for achieving a functional community, could impose a negative outcome and impact our community in ways we would find unacceptable and inappropriate, if we truly wish to move forward with a positive future, that would be feasible and equally responsible.

It would be vital for you to reconsider the decision of removing citizens from PAC/HAC committee, as it does not seem to be in favour with what is best in everyone's interest, with our future in mind. I strongly value all voices are valid, and equally have a place in the bigger perspective, so therefore, if everyone a voice is heard, as far as shaping the future in the best way, in consideration for the best future, as we are all in this together. Collaboration is a vital part in responsibility, for citizens and committees alike.

Your time is much appreciated.

Sincerely,
Vanessa Brunt
