Subject: Support for a Dedicated Pickleball Facility in Windsor

Dear Members of the WHRM,

I am writing to you on behalf of a growing number of residents in our area who are passionate about the sport of Pickleball. As you may be aware, Pickleball is one of the fastest-growing sports in North America, attracting players of all ages and skill levels due to its accessibility, social nature, and health benefits.

Currently, Pickleball players in our community face challenges in finding appropriate facilities to play the sport year round. Many rely on makeshift courts, shared gym spaces, or converted tennis courts, which often lack proper lines, nets, and surfaces suitable for Pickleball play. This has led to congestion, scheduling conflicts, and limited opportunities for players to engage in the sport they love.

To address this, I kindly request that the municipal council consider the development of a dedicated indoor Pickleball facility in our area. Such a facility would:

1.

Promote Health and Wellness – Pickleball is an excellent low-impact exercise that supports physical and mental well-being for people of all ages.

2.

Encourage Community Engagement – The sport fosters social interaction, helping to strengthen community bonds.

3.

Support Economic Growth – Hosting Pickleball events and tournaments could attract visitors and generate revenue for local businesses. The economic spinoffs of such tournaments in other areas have been large.

4.

Enhance Recreational Offerings – As demand for Pickleball grows, adding a dedicated facility would ensure our town continues to provide diverse and inclusive recreational opportunities.

Thank you for your time and consideration.

Sincerely,

Craig MacPherson
